TO WHOM IT MAY CONCERN

Dear Sir/Madam,

STEAMPRO STEAM ENERGY CONSERVATION PRODUCTS

We are pleased to inform you that we have contracted Steampro Conservation Sdn. Bhd. as our business partner in our efforts to conserve energy and enhance our productivity for our 100% owned subsidiary, Wear Safe (Malaysia) Sdn. Bhd. latex glove factory in Klang, Selangor.

We have full confidence towards Steampro's dedication, reliability professionalism and their expertise in the consultation and implementation of the Energy Conservation System as they have demonstrated and adopted an effective and systematic implementation methodology resulting in the successful completion of the project with minimal downtime. The project was completed and delivered within the budget set and within the necessary time stipulated by us.

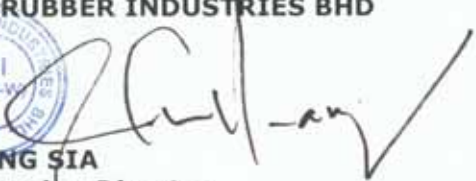

Through the completion of the project, we have consistently achieved substantial fuel, water and water chemical savings and the results have exceeded our expectations of energy savings, reject reduction, profit enhancements and a safe working environment for our employees.

There haven't been any stoppages, breakdowns, leakages or damages caused by Steampro System since the completion of the project. The certification of their products from third party of The American Petroleum Industry (API) has given us extra confidence on the reliability of their products.

We unreservedly recommend Steampro System to any organization as being complementary to their outstanding and reliable products and the professionalism of its team.

Yours faithfully,
KOSSAN RUBBER INDUSTRIES BHD
